Prepare. Plan. Create.

Welcome YouScheduler friends and supporters,

We appreciate you for connecting with YouScheduler. YouScheduler provides a service for students to achieve their full potential and institutions driven insight to build the best experience possible for their students and faculty. It is a startup company founded and run by two students at the University of New Hampshire aiming to unlock the world of college course analytics. With an efficient software, YouScheduler's suite allows students to prepare, plan and create their desired course schedule. YouScheduler is able to help students increase their success and provide institutions data-based insight to enhance learning in higher education.

The YouScheduler team in combination with our supportive mentors and advisers, aim to enhance higher education. Special thanks to the University of New Hampshire Entrepreneur Center for providing YouScheduler the resources to expand as a company and continue to grow in becoming a leader contributor in software as a service to enhance higher education across the nation.

Read on to learn more about what the team has been up to in recent months!

Thank you,

The YouScheduler Team

Summer Expansion

With classes completed and the dreaded week of finals passed, many students at the University of New Hampshire packed their bags and left campus ready for a relaxing summer. For the YouScheduler Team, this summer brings travel to an astounding opportunity, stepping into a new role, and expansion.

At the start of the summer, Co-Founder Francesco Mikulis-Borsoi headed west to Cupertino, California. Mikulis-Borsoi had the honor of accepting a prestigious software engineer internship for arguably one of the most innovating and cutting-edge technology companies in the world; Apple. Although the majority of his time will be dedicated to fulfilling his internship responsibilities, Mikulis-Borsoi will still be working and assisting the YouScheduler Team back home in Durham, New Hampshire.

This summer, Co-Founder Kristian Comer geared up to take on a management role at YouScheduler headquarters in Durham, New Hampshire. Comer, still a lead developer in YouScheduler's software, will manage two summer interns. Although it will take time adjusting to his added responsibilities as a manager and leader, Comer is thrilled about the immense strides the company will endure this summer.

Through the Entrepreneur Center at the University of New Hampshire and the Patten Family Foundation, YouScheduler was able to hire Jessie DeLouis as a Finance and Digital Marketing Intern. DeLouis is entering her junior year at the University of New Hampshire and is a Business Administration major with a dual option in Finance and Business Analytics. Throughout the summer DeLouis will be improving YouScheduler's social media presence as well as performing market development. DeLouis will also be producing a marketing plan, blog, and case studies for the company.

YouScheduler also chose to hire Caleb Pepper as a Software Development Intern. Pepper is also entering his junior year at the University of New Hampshire as a Computer Science major. Pepper will work closely with Kristian Comer in expanding YouScheduler's software suite throughout the summer.

"I wanted to work for YouScheduler because I am passionate about building and creating products that have an impact on the people around me. YouScheduler is an amazing tool that allows me, my friends, and colleges to schedule their time more efficiently."

- Caleb Pepper
